Three Hundred Turks Killed in a Bombardment by the Italian Cruisers.

BY A. P. NIGHT WIRE TO THE TIMES.

LONDON, Jan. 21.—[Exclusive Dispatch.] Italy's naval activity seems likely to lead to serious international complications, according to a Paris dispatch to the Chronicle. Unless Italy gives France satisfactory explanation for the seizure of French steamers, France will send a naval demonstration against Italy.

PARIS, Jan. 21.—The gravity of the situation arising through the seizure of the French steamer Manoubia, January 19 by Italian destroyers, while on a voyage from Marseilles to Tunis, has been increased by new facts which came to light today.

It now appears that the captain of the Manoubia, which included among its passengers twenty-nine Turkish nurses of the Red Crescent Society, only surrendered the Turks on orders from the French Embassy at Rome. It had previously been reported that the captain had disembarked the Turks on his own initiative at Cagliari, in Sardinia, and was then permitted to leave the port.

The French Foreign Office declares that no such orders emanated from Paris, but that, on the contrary, the Consuls have been instructed through the Embassy to oppose all surrender. It is further stated that the question of the Turkish nurses on board the Manoubia was discussed by Premier Poincaré and the Italian Ambassador, Signor Tittoni, on Wednesday. The latter declared he was fully satisfied with the Premier's promise that they should be subjected to rigid scrutiny at Tunis.

The action of the French government in demanding the release of the Turks is approved throughout France as the only means of removing what otherwise would be an indelible stain on the French flag.

THREE HUNDRED TURKS KILLED.

ROME, Jan. 21.—[Exclusive Dispatch.] It has been learned here that 300 Turks were killed when the port of Zozara was bombarded Friday by the Italian cruisers Carlo Alberto, Cigno, Canopo and Palmira. The forts there were speedily destroyed.

BRITISH STEAMSHIP IS ALSO SEARCHED.

CONSTANTINOPLE, Jan. 21.—The town of Khan Yunus, on the Syrian coast has been bombarded by an Italian warship, according to advices reaching here.

There is considerable talk of collective intervention by the powers to end the war, but it meets with nothing but derision in Constantinople. The government organ Tanin, avers that no Ottomans or Ottoman Cabinet would ever agree to abandon Tripoli or Cyrenaica in return for the payment of indemnity.

THROUGH A FIELD GLASS SEES HER HUSBAND DIE.

BY DIRECT WIRE TO THE TIMES.

MARSHFIELD (Or.) Jan. 21.—[Exclusive Dispatch.] From her own home Mrs. Joseph Yonkers viewed through a field glass the wreck of the launch and death of her husband. His son, Wynne Albion, was in a rowboat lighting the channel lamps when the accident happened. Mrs. Yonkers saw an anchor dropped, but it did not hold and stern first the little craft was carried out by the strong tide and struck the submerged jetty.

The men aboard were probably killed at once. The cabin of the boat was shattered in a moment. The accident also was witnessed from the lookout and the life-saving crew was called out, but owing to the distance from the station to the bar, it was impossible for the crew to get there in time.

One of the victims was Ira Albion, tender of the South Slough bridge and also tender of the government channel lights. His son, Wynne Albion, was in a rowboat lighting the channel lamps when the accident happened. Mrs. Yonkers saw an anchor dropped, but it did not hold and stern first the little craft was carried out by the strong tide and struck the submerged jetty.

The effort of Bingham and his crew, however, was fruitless. The ill-fated launch apparently had no power. Mrs. Yonkers saw an anchor dropped, but it did not hold and stern first the little craft was carried out by the strong tide and struck the submerged jetty.

Yuan Is Prepared for Flight.

Manchus Deserting Peking in Hordes for Safety With Foreigners.

Fight to the Death Promised in the Capital Before Throne Abdicates.

Monarchical China to Be Declared Bankrupt on New Year's of Celestials.

BY A. P. NIGHT WIRE TO THE TIMES.

PEKING, Jan. 21.—A special train has been held in readiness since Friday to take Yuan Shi Kai to Tientsin. It was evidently the Premier's plan to transfer the provincial capital to that city, where the danger from Manchus was slight. He apparently intended to escape from Peking as soon as the edict of abdication was signed, but the reactionary princes gained the upper hand temporarily and prevented the issuance of the edict.

Meantime the republican ultimatum arrived and resulted in a considerable change of programme. This ultimatum demanded the abdication of the throne, the surrender of the sovereign powers and set forth the refusal of the republicans to permit Yuan Shi Kai to participate in the provisional government until the republic had been recognized by the foreign powers, and the country restored to peace.

Former Yuan will still have need of the special train, because it is expected he will refuse to carry on the government at Peking without abdication, after which he and his troops will be subject to the greatest Manchu hostility.

Prominent Manchus and Chinese are deserting Peking hastily with their families and seeking safety in the foreign settlements at Tientsin, Tientsin and other places.

A fight to the death is the spirit of the younger Manchus princes, and it has resulted from the wavering of the court on the question of abdication. Yuan Shi Kai's position is considered by his friends as considerably shaken. The young bloods are urging the appointment of Tishiang, who, in addition to his experience on the war board, was Tartar general at Nan-king, to take command of the northern army, with instructions to march his forces against the republicans. The ex-Regent, Prince Chun, continues a strong supporter of abdication.

The Manchus troops are indifferent. They are ready for war or peace, which ever is decided upon. Yuan Shi Kai's position is unenviable, and he appears to be satisfied that the Manchu cause is lost.

Oklahoma Minister Delivers His Sunday Sermon After Battle for Possession of the Church.

MUSKOGEE (Okla.) Jan. 21.—With both eyes blackened and swollen, his face and lips cut, his clothing torn and disheveled, and with a policeman on guard at the pulpit, Rev. D. Noland Smith preached the dedicatory sermon in the First Methodist Episcopal Church, here today.

A two-week legal battle for the possession of the new edifice culminated this morning in an assault upon the preacher as he was going to church. The assailant was C. F. McKee, a contractor, who had been locked in jail for three hours in order to compel him to turn over the keys to the building to the church officials.

TRANS-PACIFIC LINES TO BE PROSECUTED NEXT.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Jan. 21.—That the Department of Justice contemplates the prosecution of certain trans-Pacific steamship companies for having given rebates to favored shippers, was the intimation of R. Dickinson, special agent of the department, who made his presence known here today, after having spent a week in quiet study of shipping conditions on the water front.

Dickinson came here from Seattle where, he said, he had looked into the reports that American firms shipping goods to the Orient over the Northern Pacific Railroad, owned by J. J. Hill, and the Hill steamship line, had received rebates from the steamship company. "It is a known fact," said Dickinson today, "that the Atlantic steamship companies are in a combination whereby the European shippers of goods and merchandise get a rebate of 4

per cent. from the scheduled traffic rates. This practice has been one of the great factors in keeping American goods out of South America, as American shippers can not get the rebates.

"While in Seattle I found that steel could be shipped more cheaply from Pittsburgh to Manila than from Pittsburgh to San Francisco, and that freight could be shipped from Germany to Salt Lake City more cheaply than from Cincinnati to the same destination."

The investigation, Dickinson stated, was begun at the request of the Rules Committee of the House, after Representative Humphrey of Washington, had introduced a resolution asking for the investigation of the shipping trust, alleged to be in operation on both oceans.

Dickinson declined to say how long he would remain here, but said he would go as far as the Rocky Mountains in search of evidence.

VICIOUS PERSIAN PLOT TO INVOLVE AMERICA.

(BY A. P. NIGHT WIRE TO THE TIMES.)

TEHRAN, Jan. 21.—A plot to kill one of the American officials has been discovered and this explains the attempt against the American, Col. Bruce, attaché to the treasury general, who was shot at while leaving the barracks on January 16.

Former officer of the gendarmerie has made a confession of the plot in which he implicates himself. The object appears to have been to create a political incident in which the United States would be involved.

A court martial at Teheran has been busy sentencing constitutionalists to death or exile. Several have been sent to Siberia from Reast. These towns are in the hands of the Russians. Andrasian, the principal Persian Armenian in Teheran, has been hanged on the charge of complicity in the recent fighting.

Appeals from the Armenian archbishop of Isfahan and from various influential bodies against this execution have been ignored and it is feared it will have a bad effect on the Armenian police force, which was largely responsible for the preservation of order in Teheran during the recent troubles.

SHOOT AT RABBIT, KILLS NIECE, ENDS HIS LIFE.

(BY DIRECT WIRE TO THE TIMES.)

ACOMA (Wash.), Jan. 21.—[Exclusive Dispatch.] "Dear sister: I have killed Belle by accident. Forgive me, forgive me. I have taken poison to end my life. T. B. Neff."

This note written on a piece of paper explaining his deed was found in the hat band of T. B. Neff, aged 32, a rancher near Puyallup, who after accidentally killing his 12-year-old niece, Anna Belle Bond, committed suicide today.

Neff had gone rabbit hunting, taking with him his two little nieces, Anna Belle and Anna Bond, daughters of George Bond of Puyallup. They had walked 300 yards from the house

when Neff sat down on a log. The little girls remained standing. From a small clump of bushes at one end of the log a rabbit appeared and ran directly in to the brush. Seeing the rabbit and knowing her uncle would shoot, Anna Belle, unknown to Neff, ran behind the brush. As the rabbit reached the bushes, Neff fired, the shot striking Anna Belle in the heart. She gave one scream and fell dead. He took Mabel home leaving Anna Belle lying where she fell. Then he changed his coat and started up the road to Puyallup. That was the last seen of him until he was found dying of a heart attack by H. H. Cox. He had swallowed strychnine.

DEATH SUMMONS BRIDGE HEROINE.

MISS KATE SHELLEY DIES AT HER IOWA HOME.

Woman Whose Exploit at Molong Bridge Thirty Years Ago Turned Bands of Text Book Stories in Dead—Was Rewarded by Enactment of Legislature for Bravery.

BOONEVILLE (Iowa), Jan. 21.—Kate Shelley, heroine of the Honey Creek flood disaster in 1881, died today at her home, a quarter of a mile from the Molong bridge across the Des Moines River, the scene of her heroic deed.

Six months ago she was operated on for appendicitis and before she recovered, Bright's disease set in. During a violent storm thirty years ago, Miss Shelley, who was station agent at Molong, crossed the bridge over the Des Moines River on her hands and knees at midnight in order to flag a passenger train on the Chicago and Northwestern Railroad to save it from plunging into the Honey Creek, over which the bridge had been washed away.

A yard engine with an engineer and two firemen went through the Honey Creek bridge, which is only a short distance from the Molong bridge, and Miss Shelley realized that she must act quickly in order to have the passenger train stop in time. With her lantern she succeeded in stopping the train only a few feet from the broken bridge.

For her bravery the Iowa Legislature awarded her a medal and a sum of money. She also received substantial recognition from the railroad company, as well as many contributions from various parts of the country.

Although in comfortable circumstances, she preferred to work as station agent at Molong up to the time of her illness.

Dr. Ann Clark.
STOCKTON, Jan. 21.—Dr. Ann Clark, former superintendent of the Stockton State Hospital and a pioneer resident of this county, died after a long illness. Dr. Clark was born in New York in 1824, received his medical education at the State Hospital and in 1852 was made superintendent. In 1896 he resigned and was succeeded by his son, Dr. Fred P. Clark.

Murphy Better.
PHILADELPHIA, Jan. 21.—[By A. P. Night Wire.] Michael C. Murphy of the University of Pennsylvania, selected to coach the American team to be sent to the Olympic games in Stockholm, Sweden, next July, has so far recovered from his illness that he expects to resume his duties soon. He decided today that he had any thought of resigning as coach of the American team. The team will not sail from this country until the latter part of June.

ORDERED TO KISS WIFE.

Tennessee Justice Adds Further Penalty of Hundred Dollars for Helpmeet.

(BY DIRECT WIRE TO THE TIMES.)
MEMPHIS (Tenn.), Jan. 21.—[Exclusive Dispatch.] To be ordered by the court to kiss one's wife is the latest penalty meted out in Memphis. George and Mary Miller have not been married very long, but the golden glow of married life soon wore off. George came home one night after imbibing too freely. His wife says she then "grew to fear him." Consequently she took her case to Justice Gallatin. At the hearing George admitted his guilt. "Well, I'm going to sue you a kiss and \$100 payable to Mrs. Miller," decreed the justice, who discreetly turned away. She blushed; George did it. Instead of one kiss George took a half dozen.

WILL PUBLISH HIS "JOURNALS"

INTIMATE SECRETS OF ABDUL HAMID'S LIFE.

Ottoman Government Decides to Give to the World the Masses of Written Matter that the ex-Sultan Accumulated During His Long Reign.

(BY DIRECT WIRE TO THE TIMES.)
CONSTANTINOPLE, Jan. 21.—[Exclusive Dispatch.] The Ottoman government has decided to publish the so-called "diaries" of the late Sultan Abdul Hamid II. This determination highly excites the usually sluggish Moslem population. It is the subject of conversation everywhere in the coffee houses of Pera in the jebles of Parliament, in the streets of Stamboul, in the drawing-rooms of politicians and officials.

The "diaries" are the secret records of Abdul Hamid's long reign. They are written and signed documents sent to him by his secret agents throughout the empire and all over Europe. When published they will form a valuable addition to the true history of this country.

The "diaries" include documents of almost every variety and description, diaries, historical memoranda, secret "informations," reports of transactions in the slave markets, bills, dispatches from Ottoman ambassadors, feverishly scribbled notes from venal counsellors, the letters of harem hours courting their master's favor, and short missives from contemptible slaves plotting against a favorite Sultan. Taken all in all, they brightly illumine Abdul Hamid's character.

A number of these documents were discovered in the vast precincts of the Yildiz Kiosk after Abdul Hamid was deposed. It is estimated officially that there were more than 500 cases of various sizes crammed to the brim with papers.

One of the papers discovered, however insignificant in itself, however irresponsible the writer, preserved all and did fine things sign preserved all and during his long reign accumulated hundreds of thousands. He knew where to find almost everything. Most of these documents are letters of denunciation. The former sultan always kept up a formidable system of espionage, which cost him \$140,000 a year. This intricate system had branches rising into the highest circles of society, others descending to the lowest levels of the populace. Abdul had several secretaries whose only duty was to receive letters from secret agents and to transmit them to the monarch at once.

HIS SERENITY IS EXPLAINED.

President Has Word Roosevelt Will Not Run.

Cabinet Members Have Made Calls at Oyster Bay.

Are Told Nomination Would Not Be Accepted.

WASHINGTON (D. C.) Jan. 21.—[Exclusive Dispatch.] President Taft's serenity in the face of a widespread propaganda for the nomination of Theodore Roosevelt for the Presidency is now explained by an authoritative statement that Mr. Roosevelt recently told members of the Taft Cabinet that he would not accept if nominated.

Careful observers have noted that since last before Christmas Henry L. Stimson, Secretary of War, has paid at least three visits to Oyster Bay. Mr. Stimson was Mr. Roosevelt's unsuccessful candidate for Governor of New York last year. Secretary Meyer, who was the only Roosevelt Cabinet officer retained in the Taft Cabinet, has conferred with Mr. Roosevelt within the last two weeks. It has been a matter of quiet comment in Washington that if relations between Oyster Bay and the White House were severed, it would be difficult for any Cabinet officer to be visiting Mr. Roosevelt frequently, and nearly next to impossible for Secretary Meyer or Secretary Stimson to do it, they having been formerly so close to him.

It is now learned in an authoritative quarter that Mr. Roosevelt told both of these Cabinet officers that he was not and would not be a candidate for another nomination, and that to one of them he said he would not accept if nominated.

MEETING FOR ROOSEVELT.

Meeting in Chicago South Side Votes Overwhelmingly in Favor of Former President as Candidate.

CHICAGO, Jan. 21.—[Exclusive Dispatch.] The First Congressional District of Illinois, at a meeting last night, voted to instruct the district's two delegates to the Republican national convention for Theodore Roosevelt as Presidential nominee.

The vote was: For Roosevelt, 115; Taft, two; La Follette, 1; Foraker, two.

At least 95 per cent of the committeemen, it is said, will be re-elected at the April primaries and will repeat last night's action.

The district, which is in the south side of Chicago, was the first in the State to take a stand for the nomination of Mr. Taft four years ago.

Keeps the Sabbath Day Holy.

OYSTER BAY (N. Y.) Jan. 21.—[By A. P. Night Wire.] Former President Roosevelt was asked today if there was any truth in the rumor that he was going to New York to see his old friend, General Hitchcock, who was in New York yesterday, had a conference with him and then returned to New York with a wave of his hand and "not one word to say." He told the newspaper men he would not answer political questions on Sunday.

AWFUL SLOW ABOUT IT.

LINCOLN (Neb.) Jan. 21.—[By A. P. Night Wire.] Although it had been nearly a week since Secretary of State White reversed his previous ruling and announced that candidates placed on the Nebraska primary ballot without their consent could have them removed on their own declaration, no move has been made by Col. Roosevelt to have his name taken off John C. Yetter of Omaha, who filed the Roosevelt Presidential petition, says he has no intention of cancelling it. The name of William J. Bryan still remains on the ballot.

HIDE BODY.

FRESNO (Cal.) Jan. 21.—[Exclusive Dispatch.] Concealed in the bottom of a sack of bran, the murdered baby girl which was born to Mrs. George Parkinson at Selma Friday morning was discovered today by Sheriff Walter McGowan and District Attorney Denver S. Church. Mrs. Parkinson tonight made a full confession. She said she hid the body under the house Friday noon. District Attorney Church said tonight that the parents will be charged with murder.

A VERY LONELY VOYAGE.

NEW YORK, Jan. 21.—[By A. P. Night Wire.] The American bark Drigo today completed a voyage from San Francisco to New York without once having been spoken in the five months she had consumed in her passage "around the Horn." The big four-master brought a cargo of general merchandise.

Destitution.

HONGKONG, Jan. 21.—The exciting news of war and diplomacy has caused the world to forget the terrible destitution that now prevails in China. It is a side issue, but one which may have a vital effect on the settlement of the revolution.

The food of the Yangtze last July and August has resulted in famine areas which now are defined accurately. First there is the great Hwai Valley region, measuring about 100 by 200 miles, where the farmers have had only one good crop since 1905. Not only is there no reserve to meet present conditions, but the people have lost heart and will not try to help themselves.

The second area is about Wu Hu, where the overflow formed for a time an inland sea from eighty to 100 miles long, and varying in width from thirty-five to forty miles.

The last district is the Nan, where the floods were local. One section thirty miles square and containing at least 10,000 people, was submerged completely. An estimate of 100,000 people facing absolute starvation in

MAKES HAIL IMPOSSIBLE.

French Physician "Hailed" as a Great Benefactor of Agriculture.

BY DIRECT WIRE TO THE TIMES. PARIS, Jan. 21.—[Exclusive Dispatch.] Curie De Bouchamp, physician, is hailed as one of the greatest benefactors of agriculture owing to his discovery of hail destroyers. The Count discovered hail cannot form when there is no electricity in the air. He has perfected an instrument, like a lightning conductor, which drains the atmosphere of electricity. For some time the hail destroyer has been working with success in rural districts formerly subject to hailstorms, which, it is estimated, cost the farmers and fruit growers, \$40,000,000 a year.

FIVE KILLED IN DUST EXPLOSION.

WHOLESALE SLAUGHTER IN A WYOMING COAL MINE.

Terrific Combustion Takes Place at Thompson, Feet Below Surface of Ground—Fifteen Injured, Besides Men Killed—Mine Rescue Car Renders Valuable Assistance.

BY A. P. NIGHT WIRE TO THE TIMES. KEMMERER (Wyo.) Jan. 21.—The cause of the dust explosion in mine No. 4 of the Kemmerer Coal Company late yesterday, which caused the death of five men and the injury of eighteen others has not yet been determined.

The dead: JAMES SMITH, JAMES HANSEN, JAMES WARD, PETER LAYDON, THOMAS DIXON.

All were Americans. They will be buried here. Nine of the more seriously injured were removed today to a hospital at Rock Springs, Wyo.

The explosion occurred in what is known as the "Second North" entry, 100 feet from the main shaft and 1000 feet from the surface. All the injured were working in the immediate vicinity of the explosion, the violence of which was directly responsible for all the deaths and injuries. The blast, which was heard for miles, was caused by the mine fans.

Rescue crews from the other mines of the Kemmerer Coal Company and helmet men from the United States mine and the United States mine, arrived at the mine late yesterday.

COMMEND MOVE OF PRESIDENT.

Action in Cuban Affairs Is Agreeable to Europe.

Wisdom of It Is Generally Recognized Abroad.

In Only a Few Quarters Is Fault Found With It.

BY DIRECT WIRE TO THE TIMES. LONDON, Jan. 21.—[Exclusive Dispatch.] President Taft's course in the matter of the Cuban note is commended throughout Europe, save in a few quarters, where the disposition to misrepresent the motives of the Washington administration is notorious. The sole criticism is that "a wise step has been taken belatedly."

In Fleet street circles it is alleged that the British Foreign Office two months ago was informed that the political activities of certain Cuban military men were likely, if unchecked, to precipitate one of those democratic situations which have so often and so long disturbed the equilibrium of the Latin republics beyond the Atlantic, and that "suggestions" were offered informally to Washington about a fortnight later.

By a bitter Berlin center of American policy in foreign affairs a journal that does not conceal its sympathy of a breakdown in the Knox-Grey arbitration proposals—the United States is charged with "playing the slow but sure game for the absorption of Cuba, and as ready to take their stand, if a pretext could be found, to dispossess a South American republic of territory contiguous to a canal constructed for naval rather than commercial use. But in this case the animus is plain.

That American occupation would be prolonged indefinitely if brought about by conditions such as Washington plainly fears might develop, London says, "cannot be doubted, and would be received with the whole of Europe without regret; the Cubans have not yet yet learned their lesson they probably never could learn it."

DIRT RUNS FOUR DOLLARS A FOOT.

TWO RICH GOLD STRIKES ARE REPORTED FROM ALASKA.

Two Thousand People Stampeded to Long Creek Ruby District and Are Waiting for Spring—Discoveries Can Be Reached Only by Herold Outlay of Brown.

TACOMA (Wash.) Jan. 21.—[Exclusive Dispatch.] Alaska today reports two new gold strikes. Dirt running 14 per cent in gold is found high up on Windy Bench, on point Two Below, in the Long Creek Ruby district. People are wintering at Ruby City, many of them in tents. They stampeded there last fall on reports of good surface indications. A good body of fifteen cent dirt has been uncovered on Glenn Gulch, without reaching bedrock. They have also been struck in Trail, Surprise and Gold Run creeks.

The other rich strike is on Anzures Peak, a tributary of the Kuskokwim River, into which it empties. Seventy-five miles below Georgetown, it is the biggest discovery of pay yet made in the great Kuskokwim region. The gold is coarse and shows good prospects from the surface down.

Harold and Orville are the richest so far prospected. Experts say these diggings will equal and surpass the famous Fairbanks and other gold fields of Alaska. A good body of fifteen cent dirt has been uncovered on Glenn Gulch, without reaching bedrock. They have also been struck in Trail, Surprise and Gold Run creeks.

FIELD TRIALS START TODAY.

Dog Fanciers to Have Good Sport at Bakersfield.

Large List of Entries Shown in Two Big Stakes.

Half Dozen Animals in from Southern California.

BY DIRECT WIRE TO THE TIMES.
[Exclusive Dispatch.] Members of the Pacific Coast Field Trial Club arrived in Bakersfield last night and today will begin the trials for the twenty-ninth annual tryout of aristocratic pointers and setters on the fields south of this city. The trials begin Monday morning with the derby stake, which may take two days. The other stakes follow in the order named: All-age, members and championship. The annual election of officers will be held Tuesday night, and the trials probably will be concluded on Thursday. It is expected that forty-five dogs will be entered. The weather promises to be perfect except for lack of moisture.

The first arrival was Judge C. N. Post of Sacramento. George B. M. Gray of Oakland, and Judge Mrs. Carroll Cook of San Francisco, came yesterday, and E. Courtney Ford arrived last night.

Following are the entries for the derby and the all-age stakes:
Derby—English setter, J. E. Perry, owner, T. C. Dodge, handler; Kildonan, English setter, F. J. Russell, owner, W. B. Cotta, handler; Ruby, English setter, George B. M. Gray, owner, T. C. WHY THE SOUP HAD TOO MUCH PEPPER.
The Los Angeles Country Club, that illustrious center of fashionable and elegant entertainment, had a chef, One Frances de Harak, by name, who in his turn had a spouse. Said spouse lived far to London, Eng., some three weeks since, leaving Frances discontented but resigned.

Now Frances the chef is a king among men. The members of the club want to breathe his name with a cheer when they dispense their highly priced invitations to "come and have a bite with me down at the club, old chap."

Therefore picture to yourselves the horror and indignation of the chef when upon January 16, in this year of grace, the horse driver arrived with a box of soup, with a note pinned to it, the potatoes without salt, the famous sauce Neapolitan distinctly lumpy, the gravy, mon dieu, what gray!

Alas, if you can conceive of Wagner with an introduction of rag-time; if you can imagine a Michel Angelo grossly out of proportion; if you can picture Calve or Caruso distinctly fat; or Tukin gullies of had grammar, then perhaps you can realize the awfulness of an imperfect dinner served by Frances de Harak.

They found him dazed, hysterical, laughing and weeping by turns—the guttural essence of all the emotions bubbling in visible conflict. In reply to their frantic inquiries as to the cause of his condition, he pushed forward a cablegram: "LONDON, Jan. 16.—Arrived O.K. By girl boat 12 p.m. today. They understood. Frances had become a father by cablegram."

With the hideous prospect of a "lost art" dispelled, with the hope of further gastronomic poems to come, they will be loath to let the chef go until next week when Frances adjusts his family status.

LINCOLN BALL CLUB IS ON THE TOBACCO.

BY A. P. NIGHT WIRE TO THE TIMES.
LINCOLN (Neb.), Jan. 21.—The option of "Ducky" Holmes, former manager of the Lincoln "Antelope" upon the Lincoln Baseball Club, expired tonight.

Holmes was unable to secure financial backing and unless the option was renewed, the proposed sale for \$15,000, will not take place. John Gunther, of Denver, who had depended upon a financial aid for Holmes, but he has not responded. With bankruptcy proceedings pending, and the time limit for signing plays, and the signing February 1, the situation of the Lincoln club is serious.

Keeps Running.

ALCO TRUCK BREAKS WORLD RECORD ON NON-STOP RUN.

BATTLING with snow and contending with bad roads and icy hills, the Alco truck in service for the United States Express Company this evening reached the 177-hour mark, a new world's record.

The former world's non-stop record of 168 hours was made by the Alco a year ago. No difficulty has been experienced with any part of the mechanism, and the motor is running continuously every hour of the day and night.

During the last twenty-four hours the duty was confined to long heavy hauls. As a result, the truck covered 208 miles of territory. It made twenty-six trips, averaging eight miles each, between the express company's depot and the railroad terminals of a number of New Jersey cities.

Three crews of drivers are employed, each driver accompanied by a helper. Each shift is on duty for eight hours. The truck, which is making this run, is the one that has been in service for the express concern for the past six weeks. From four to six teams are being supplied.

BALLOON PILOTS DROP TO EARTH.

STEVENS AND SAUNDERS SPEND THRILLING NIGHT.

Drift for Hours in the Darkness About Dominguez Field and Near Morning Rise Big Bag and Fall Seven Hundred Feet—Both Have Miraculous Escape from Death.

Balloons Hugh R. Stevens and J. H. Saunders were the victims yesterday of a thrilling all-night air voyage over the ocean, and a fall of seven hundred feet to the ground that was not on the scheduled programme of the aviation meet.

They left Watts in their balloon Tokpeka II Saturday afternoon, and were up in the air until 1:30 o'clock yesterday morning, when they fell 700 feet to the ground, near San Pedro. They had no provisions with them as they had not planned on so long a journey, and were nearly starved after their long trip.

After ascending easily the balloons started off toward Dominguez field. Far in the distance the thousands of spectators in the grand stand watched the big balloon as it majestically journeyed toward the field. It was only for several miles, however, and then it was lost to view. What became of the aerial craft was not known. News of the narrow escape of the

WOLCOTT ONE GREAT FIGHTER.

Little Colored Man a Marvel in His Time.

Jack McAuliffe Lightweight of Real Class.

George Lavigne Best Ever Showed in the Ring.

BY DE WITT VAN COURT.

I consider Joe Wolcott one of the greatest fighters in this country in his time. He started as a middleweight, but that Dixon did, and was under the management of Tom O'Rourke as was Dixon. He only stood five feet, an inch and a half in height. He had more than 125 fights and won the majority of them. He was always a welterweight but fought, won and knocked out several heavyweights. He defeated Joe Thompson, who weighed about 165 pounds, and big Fred Russell, who weighed more than 220 pounds stripped.

One of the most remarkable fights he ever fought was with Kid Lavigne in San Francisco, in 1897. They fought at 135 pounds ring side, and to make the weight Wolcott had to work harder than he ever did in his life. He ran over the roads until he could hardly stand on his feet the day of the contest, and on his way over San Francisco the evening of the fight, he was wrapped up in blankets and made to sit in front of the machine charged upon him like a bull when the bell rang he went limp back to his corner.

WOLCOTT FRAMED UP.
It had been arranged before hand that Wolcott was to lose the fight, but Lavigne was innocent of the job. Wolcott's backers had bet their money on Lavigne, thinking Joe had little chance at the low weight. He was forced to make. Wolcott started apparently as fresh as ever and nearly knocked Lavigne out in the fifth round, when his manager, who was seconding him, instructed him to get a cramp in his leg in the middle of the next round. He did so and began to limp. Lavigne saw instantly that something was wrong and started to take advantage of his chance and went after Wolcott pretty fast, when suddenly Joe began to fight back hard and when the bell rang he went limp back to his corner.

WRONG LEO SORE.
At the beginning of the next round, he came up limping on the wrong leg. This was too much for Leo O'Rourke, and he threw up the sponge and Lavigne was given the fight. But at the time believed that the fight had been a set one, and afterwards fought George Gardner when Gardner had the light-heavyweight championship. They went two rounds and Wolcott won the fight by straight left-hand jabs to his face.

Wolcott was remarkable in the report of the fight. He was about the funniest looking man in the ring that I have ever seen as black as ebony, and had a continual grin on his face while he was fighting. When he sat in his locker he was not long enough to reach the floor.

JACK A GOOD ONE.

Jack McAuliffe was one of the greatest lightweights that ever fought. He was a very clever, snappy and a great puncher. And like Tommy Ryan in many ways, could wait his chance without getting discouraged. His first fight of any great importance was with Tom Cawsey, the English champion of many years ago. McAuliffe won after a long and vicious fight. Many claimed that Cawsey was clobbered. The most important fight he ever had was with Englishman Carroll in San Francisco, in the old California Club. They were matched for a five-round bout, and the money, Carroll had the better of the contest for about thirty rounds, when McAuliffe came in and caught him counter on the jaw in the thirty-second round and knocked him out cold in the next.

There was a great interest taken in that fight all over the country and many hundreds of dollars changed hands on the result. McAuliffe won a fight from Billy Meyers the night before John L. Sullivan fought Jim Corbett in New Orleans and he followed the races for years after and finally went into the vaudeville show business, doing a monologue.

LAVIGNE WAS THERE.

George Lavigne is the greatest lightweight that ever had in this country. He was about 40 Wolcott's size, built height and weight, and was a very tough, strong and aggressive boy, with a good punch and a very clever head. He had a peculiar way of getting in his blows. His seldom countered a blow, but as soon as he was hit he would swing back like lightning and usually made connections.

Lavigne was a very popular fighter. He had little to say to the press, but he did not believe much in boxing when he was training for a fight and usually got into condition by road work. When he went to England and challenged all the lightweights the only man he could get a fight with was Dick Berge, the English champion, and Lavigne had to fight with Berge after one of the hardest fights that he ever had. Berge was a very tough fighter, much along the same lines as Lavigne.

George held the title for thirteen years and stuck to the game as long as he could. Near the end of his career he fought Mysterious Billy Smith, who was one of the cleverest and toughest fellows in the welterweight class. They fought at 137 pounds and the fight was stopped by Lavigne's brother Billy stepping into the ring and leading George to his corner after George had taken an awful beating from Smith.

Lavigne was a natural lightweight and once said that he seldom weighed over 125 pounds when he fought. He was a very light man lighter than himself if he had to take off weight. He believed that if the other fellow did that it did him no good. Weight was never much of a question with Lavigne unless the other man had too much advantage.

Burns Ambitious.

NEW ORLEANS, Jan. 21.—[By A. P. Night Wire.] Frankie Burns of Jersey City, was awarded the decision over Johnny Daly of Brooklyn, after twenty rounds of hard fighting before the West Side Athletic Club, Algiers, this afternoon, winning the middleweight championship of the same ring February 18, for the heavyweight championship.

EXCITING DUEL.

(Continued from First Page.)

the field and endeavored to hide from the aviator.

War's half hour the two aviators rushed back and forth across the adjoining fields and the man was never once sighted. Disgracefully they turned to the front of the grand stand and reported the escape of the "fugitive."

When W. B. Atwater alighted from his biplane, at the grand stand, he accidentally touched the lever which started his engine full speed ahead. The machine charged upon him like a thing of life. He threw his weight against it and was tossed back and forth like a chip. The machine forced him across the stretch of the course in front of the grand stand, and while his mechanicians and friends tried to reach him to help him, he was forced into the wire fence. The fence was torn down and his machine slightly damaged before the whirling propellers could be stopped.

Immediately upon the heels of this struggle between a man and an aeroplane, came the report of the fall of Albert Elton on the back stretch.

ELTON FALLS AGAIN.
Elton had been driving around the course flying low and making great speed. When he was out of the sight of the spectators, he suddenly lost control of his machine and plunged to the earth. He struggled for a moment to right the falling biplane and then, seeing the futility of it, threw himself from the seat and escaped probably certain death.

Elton Martin was a participant in the five-mile handicap with Parmalee, Beachey and Atwood, as the man falling and as the machine plunged to the earth, a complete wreck. Martin saw the form of Elton fly through the air and strike the ground, where it lay still.

Martin immediately severed from his course. At that time he was one minute ahead of his nearest competitor. He was probably have won the handsome prize which was offered. Martin rushed with all possible speed to the spot where Elton had fallen and alighted at his side before he had regained consciousness.

Martin helped him to his feet and then immediately started from the spot where he had been made. He was able to walk to his hangar. His machine was a total wreck. This is the second time that Elton had since his arrival in Los Angeles.

Last night, disgusted at his luck, he went immediately to the city and started for his home in Youngstown, O., this morning. The wreck of his machine will be shipped to his home.

This handicap race from which Martin dropped was perhaps the hardest-fought of the day. It was won by Beachey, with the time of 2:55 and 2-55 with Parmalee second.

The race between an automobile, driven by Bert Dingley, a motorcycle, a man and an aeroplane was won by the motorcycle, but the race was between the automobile and an aeroplane.

EXCITING CONTEST.
Both the auto and the aeroplane made an excellent start and neck and neck came down the stretch, the biplane flying not fifteen feet above the head of the fleeing automobile. It reminded one of a hawk. About to pounce upon a scurrying chicken. The motor was no match for the biplane and directly in front of the grand stand the air machine rushed by the Pope-Hartford and led by a big margin.

Three of the seven pigeons were used in the pigeon-shooting contest was more interesting yesterday than the first day. Homing pigeons were used and they were liberated from a biplane operated by Parmalee while Harold Gill in a Wright biplane carried Warren Wood, commodore of the South Coast Yacht Club, who was armed with a shot gun.

The crashing buzzing of the engines as they sped through the air never fails to draw the attention of the spectators. Kearney's high-power engine is perhaps the loudest of all.

Emulating Parmalee and L. Beachey, the star aerial divers and figure eight performers, Miss Blanche Scott made a dip from a high altitude down to within a few feet of the ground, which brought a thrill to all the crowd. Many yelled she had fallen.

Harver Crawford, the only amateur up yesterday, remained in the air for 3 minutes and 45 2-5 seconds, which is considered a good record for a beginner. His home is in Tacoma, and he has been experimenting only a few months.

The man, who was being hunted by Parmalee and Gill, says the aviators never caught sight of him although he saw them at all times and his

Turpin will take passengers for a ride every morning at 11 o'clock. Immediately several applications were made and it is expected many people will enjoy the novelty of an aerial journey, during the meet.

The crashing buzzing of the engines as they sped through the air never fails to draw the attention of the spectators. Kearney's high-power engine is perhaps the loudest of all. One of the prettiest sights of the day was the race from the hangar of Parmalee, Kearney, and Beachey, who left last night on the contest in the biplane. The time, and Aviator, then the contest was won by the man who had been first only once before. The duration record was set by his biplane, which showed an air two hours and thirty minutes, was up 2100 feet. Beachey, another aviator, the only one who had been first only once before, won the duration record by his biplane, which showed an air two hours and thirty minutes, was up 2100 feet.

Harver Crawford, the only amateur up yesterday, remained in the air for 3 minutes and 45 2-5 seconds, which is considered a good record for a beginner. His home is in Tacoma, and he has been experimenting only a few months. The man, who was being hunted by Parmalee and Gill, says the aviators never caught sight of him although he saw them at all times and his

BOTH WAYS.
 A woman doctor is being tried in Seattle for starving a patient. We sometimes think in cases like this that the patient is ought to be prosecuted for having submitted to such a method of treatment.

LETTING IN THE LIGHT.
 The walls of Shanghai are being razed. Hoornah, for liberty and light! This sacred city business, with walls forbidding not only the foreigner, but education, industry and all progress, has been enough to damn China within and without.

NOT SO POTENT.
 It is asserted that a Los Angeles inventor proposes to make rubber out of the bark with which the shores of the Southland are so plentifully lined. Never, however, will help produce so much rubber as silk lisle, or whatever the department stores call it, adequately displayed.

FATAL BEAUTIES.
 Nothing wears us more than to read accounts of how the fatal beauty of some coquette has been responsible for many murders and shooting escapades. These proud beauties should each be made the fairly subdued wife of one honest man and should be religiously boycotted by other men to the limits of propriety.

NO ROOM FOR THEM.
 The Chief of Police here has caused the arrest of three men charged with engaging in the white slave traffic. We fancy that Los Angeles is singularly free from this stain, but if a trace of it can be found in any local quarter the officers cannot be too alert in effecting its eradication.

THE WHITEWASH HABIT.
 No pun was intended by the Associated Press Saturday when it stated that the head of the Pure Food Commission has been given a clear bill of health by the House investigating committee. Of course we rejoice in all the vindication which Dr. Wiley thinks necessary, but we are wondering if he is not in great danger of contracting the whitewash habit.

A DISTINGUISHED VISITOR.
 Without any flare of trumpets or blazoning of heraldry one of the world's really great men has quietly registered at our leading hostelry. Gen. Baden-Powell, the hero of Mafeking, is paying us only a flying visit, as a plain business man engaged in a business transaction with business people, but we of Los Angeles hope that some day he will come again for a more leisurely stay as the guest of his many admirers in the great Southwest.

THE BETTER WAY.
 It is said that the strike on the South Pacific is considered by the officials of the road to be ended. It will be noticed that railroad engineers seldom or never strike. They employ as the executive head of their organization a business man of so much judgment and capacity that he commands at their hands a salary greater than that of a United States Senator or a bank president. He is paid not to agitate, but to understand; not to fight, but to find the point of agreement.

CHEAPER MONEY.
 Some of the banks have reduced their rate on small loans. We are heartily glad of this. There is nothing in the world that we would rather buy cheaply than money. The difficulty of getting money at any price has always been one of the reasons that a living is high. Seriously speaking, it is a splendid thing when financial institutions find themselves in a position to show the small investor the greatest possible consideration. The small industry is the backbone of trade and it is the richness of Los Angeles that its borders contain these in great abundance.

COURAGE PAID.
 At the altar a girl in the State of Washington rejected her fiancé as the minister was about to pronounce them husband and wife. The young woman acted with judgment and courage. It was a heroic thing to do under the circumstances, but at any cost to the pride and feelings of all concerned it was by far the least embarrassing escape from the situation as it evidently existed. As long as there remained a doubt in the young woman's mind or heart, not only of the wisdom but of the necessity of the contemplated marriage, she could not proceed in honesty to herself or the man she was about to wed. Of course she should have known her own mind before the affair reached the dramatic stage, but a minute of drama is better than a lifetime of bitterness, suppression and disappointment.

OREGON'S PLAN.
 Gov. West of Oregon established an honor system among the men in the penitentiary of his State. For a long time the plan promised well, but within the last month five trusted convicts walked away from the road-making camp at which they were employed and never returned. This does not necessarily condemn whatever good there may be in the system, but it suggests to us that in jail or out of jail employers have no right to place men under a temptation which seems likely to prove greater than they can resist. Perhaps extraordinary caution in this regard should be observed with convicts, since they are men who have already broken their parole with life, having found the temptation of the world overpowering. Men go to prison in many cases because they need as much protection for themselves as the world may require protection from them.

WHO ARE THE REBELS?
 The Scotch-Irish, as they are called in the north of Ireland, province of Ulster, "Far-Downs" are a great people. When the Wyndham act went into effect to help the Irish peasant farmers to acquire title to their land the Far-Downs "went to it" and "beat to it" all the other Irish, securing nearly all the appropriation. They are a great industrial people, Belfast being the industrial center of Ireland, with its immense shipbuilding establishment and linen industry.

They have been very loyal to the English government since John Breakepear, later known as Pope Adrian IV, gave Ireland to the British crown. Being loyal they have spoken very bitterly of the "rebels" who, in 1798 and at other times, tried to separate the "Green Isle" from the "right little, tight little Isle."

The Irish Nationalists have for years been carrying on a persistent and strenuous campaign to restore to Ireland an Irish Parliament to sit in Dublin and legislate for matters peculiarly Irish. The Orangemen of the north have opposed this very bitterly. Generally their opposition was right and proper from their point of view. Some of them were too obstreperous and bitter in their denunciation of the other Irish, but that was only by the way. They had a right to their view and a right to maintain it and to oppose the opposite one by all fair means.

But they have been beaten. The Nationalists have practically won their fight, and we shall probably see before long an Irish Parliament sitting in the old Parliament House on College Green (which by the way, is a cobblestone pavement) near the banks of the Liffey. If this is accomplished it will be by perfectly legal procedure and all Ireland, willy nilly, should acquiesce and will have to do so sooner or later.

But now come our Far-Down Scotch-Irish people of Ulster and threaten to raise a rebellion against the English government, simultaneously bawling "rebels" at the Nationalists who have won their fight.

Now, these Far-Down Ulster men are hard-headed, as might be gathered from their close resemblance to the Scotch across the narrow sea. If they follow their own better judgment and not let the hot-heads run away with them they will acquiesce quietly and not by force, and not give their age-long opponents a positive right to turn the epithet rebels against themselves.

THE RIGHT TO STARVE PEOPLE.
 How far faddists and cultists may go in their preposterous claims to cure disease by unscientific methods may be determined during the trial of Mrs. Hazzard, a sanatorium keeper, for starving to death a wealthy patient who placed herself in her hands from good faith in her system of healing. There is always a great danger of unscrupulous practitioners, not legally admitted to the practice of medicine, taking advantage of sick and wealthy sufferers, driven in desperation to try any kind of cure remedy for long-standing afflictions. Too often these patients only line the pockets of quacks with their own over-valued vitality.

For this reason it is imperative for men and women of means to look with the greatest care into the credentials of their physicians and medical advisers. That under-ate competent treatment the practitioner's bank roll should grow daily fatter while the unfortunate patient's body grows daily thinner, is against all the canons of law and medicine. We don't want to legalize any system of miraculous "cure" that produces "delirious living skeletons."

The most learned in physiology and anatomy know really very little as yet about the mysterious workings of the human machine, in experiment where life and death hang in the balance they are not fools, but demons, who rush in where angels fear to tread. If some system could be devised whereby the medical profession were rewarded for their services in proportion to the increase of health in a community, instead of according to the number of sick people, the golden age of fake nostrums and patent medicine vendors would close with startling abruptness. And all the people would say amen.

FEARS-VANDERBILT CONTRACT.
 Three months of the contract engagement between Miss Eleanor Sears and Mr. Harold Vanderbilt have now gone by and still Harold does not know whether Eleanor slips down to breakfast in her kimono, whether her shining gold hair is all her own, whether she is particular about the tidiness of her petticoats, and whether she remembers to cut her toenails before they make a hole in her stockings.

And Eleanor is equally unlightened as to whether Harold sweats dreadfully when he breaks a stud, whether he fusses all the time he is shaving, whether he drops his boots noisily when he takes them off, whether he puts his clothes away nicely or leaves them all over the floor and furniture, whether he takes cold baths because he thinks it's heroic, whether he is capable of purloining her cuff links and declaring they are exactly like the ones he bought last May . . . and the worst of it is that the rest of the nine months is not going to help the poor thing.

The contract will give them time to discover if they both like Shaw, if they both enjoy grand opera, if their tastes in ice cream coincide, if they both play golf, and if they both behave nicely in public, which, of course, may be useful, but it's no good to marry on. Not a bit.

A YOUNG WAR CLOUD.
 There may be something stirring in the garage station question, after all. The garage-loading proposition seems to have a strength that will not down. It arises with sentimental frequency, a ghostly if not ghastly wraith, to haunt everybody in any manner connected with it. With the hope of having solved the odoriferous problem the Pacific Electric has established a fenced-in, deodorized, denatured plant near the county hospital junction. Residents of that vicinity have said nothing, but it is reported that they are saving wood after the most subtle fashion. It is said that their plan is to wait until the presence of a nuisance gives them the excuse for securing an injunction. There must, they say, be something in the air before they can float into court with a distilled grievance. Of course if it happens that the plant proves that vicinity have said nothing, but it is reported that they are saving wood after the most subtle fashion. EVENTS IN
LOCAL SOCIETY.

The week and at the country club presented the usual gay appearance and a number of delightful luncheons and dinner parties took place.

At the Los Angeles Country Club on Saturday evening there were several entertaining events in swing. Mr. and Mrs. Fred T. Griffith, being chief among the hosts. They occupied the large round table, which was a picture of beautiful decorations and a large merry party of about thirty guests enjoyed themselves right royally.

Other tables were occupied by Dr. and Mrs. J. S. Hunt and a small party, C. H. Sharpe, whose guests numbered about sixteen, and later in the evening, Mrs. A. C. Newton, who was entertaining quite a large party, gave a most successful dinner party. The luncheon hour had seen a reunion of tennis stars, the hostesses being the Misses May and Florence Sutton, and numerous golfers made up luncheon parties before proceeding to the fatiguing business of the afternoon.

At the San Gabriel Country Club there was also much merriment. A party of league golfers hunched there prior to the game. Afterwards the deserted golf widows consoled themselves with bridge and tea on the shady porch. Mrs. Franc O. Wood, looking remarkably well after her season at Coronado, Mrs. Strupkins, Mrs. Whomes, and pretty Mrs. Leo Stephens, who has recently taken up golf herself, with eminently satisfactory results.

Dr. and Mrs. Whomes find the club as captivating as they are building a delightful home that will command a view of the links and the tennis court.

On Friday evening J. A. Bell, whose house also adjoins the club grounds, gave a charming dinner party to several members of the club, at which his little daughter, who is not yet 14 years old, presided with marked distinction. Miss Della by name, who is invariably described as the personification of J. M. Barrie's Wendy. She has four little brothers and sisters to whom she plays mother with sweet dignity.

The Fortune Hunters.
On Friday evening also, Mr. and Mrs. E. K. Foster entertained the entire company of "The Fortune Hunters," who came on to supper at their house after the performance at the Mason Opera-house. The affair was in honor of Miss Virginia Wright, a distinguished member of the company, who is Mrs. Foster's niece. The fun was kept up until about 4 a. m. next morning when the merry-makers dispersed.

Visitors.
Mr. and Mrs. John Ashbaugh of Ohio are here to pay an extended visit to Mrs. J. L. Harris, No. 123 West Avenue 15.

Reverends.
On Saturday afternoon the Misses Marion and Mary Schuetter, the daughters of W. O. Kerkhoff of No. 734 West Adams street, gave a farewell party to a number of their girl friends from Marlborough College. They leave for several years' study in Europe, at an early date.

Mrs. Arthur S. Best and her daughter, Ellen, are leaving for a short visit to San Francisco, where they expect to stay with relatives for two or three weeks.

Cards and Lunch.
A pretty affair was the card party and luncheon given on Saturday afternoon by Mrs. W. C. Hullinger, Mrs. Catherine H. Schuetter and her daughter, being the hostesses. Their home at No. 1444 Malvern avenue, was gay for the occasion and a large number of guests assembled. Mrs. Hullinger is a very interesting personality, for whom several entertainments are planned. After the entertainment was over, Mrs. Schuetter announced the engagement of her daughter, Katherine, to John K. Burke of San Francisco, whose marriage will take place in June next.

Two Little Maids.
An exceedingly merry little party was that given by the Misses Ruth and Irene Hall on Saturday evening, at the Ramart Apartments. All boys and girls with cards and dancing as the raison d'être of the evening, but a great deal more dancing than cards.

And the Boys.
The Owl Fraternity of the Occidental College, which includes about twenty "real nice boys," was the host at a theater and supper party on Saturday evening. A large number of "real nice girls" were invited to Christopher's, where the young hosts proved exceedingly capable entertainers.

The Alameda Country Club.
This new club will see one of the first of its private member's entertainments on Tuesday, when Mrs. J. E. Story will be the hostess at a bridge luncheon. Her guests will include several members from the other country clubs, who will have an opportunity of passing upon the merits of the latest addition.

PERSONALS.

J. Probst, a prominent mining man from Boise, Idaho, is a guest at the Alameda.

Fred Winston, a well-known Kansas City banker, is registered at the Lankershim for a few days.

Mayor James Wadham of San Diego is a guest at the Van Nuys. The Mayor is one of the attorneys in the sensational Tingley-Thurston trial which has been going on for several weeks in the southern city.

Frank G. Bourne, a mining man of Boise, is at the Hollenbeck.

Mr. and Mrs. D. A. Waller of Boston are staying at the Alexandria.

W. F. Tolman, a fruit grower from Klamath Falls, Or., is a guest at the Alexandria.

O. A. Patterson, a Minneapolis banker, is staying at the Lankershim.

F. R. Marsh, a retired merchant of Colorado Springs, registered at the Lankershim.

H. C. Evans, a real estate operator of Tulsa, Okla., is staying at the Alexandria.

W. F. Japper and W. H. Noble, mining men of Prescott, are guests at the Van Nuys.

F. A. Farris, an attorney, is registered at the Hollenbeck from Ogden.

Clarence Cobb, an insurance adjuster from Denver, is staying at the Hayward.

W. E. Harvett, in the British customs service in London, is staying at the Hollenbeck.

E. E. Mote, manager of the Bureau of Car Distribution, San Francisco, is registered at the Hayward.

MUSIC AND STAGE.

(Continued From Fifth Page.)

songs, as she has a dandy voice, and the vivacity to carry them. When she sings "Alexander's Ragtime Band," garbed in a fantasy of stripes, she brings down the house, and scores another triumph in "Love Me," which closes the first act.

Of course there is a chorus, and it tries hard to outdo the scintillating Carrie, and almost succeeds. The girls disport in all sorts of clothes and near clothes, ranging from some that are temptingly low cut to some belabored suits in the finale which, taken together, leave nothing to the imagination.

Pilot? There isn't any! Just remember that. "Set a spell of foolery in which comedy, music and pretty girls keep the ball rolling."

Nick Basil is one of the funny men. He is a bell boy most of the time, but this is only an excuse to get him on the stage. He contributes one capital number called "Just Got Married," in which he shares honors with Evelyn Knives, assisted by the chorus. Miss Knowles is both cute and pretty, and her more frequent appearances would be welcome.

Another good character is that played by Dick Hume. His style of gait and speech remind one somewhat of Eddie Foy, and he furnishes no end of fun.

The show is so mixed up that even in writing about it one can't help skipping from mirth to melody, merriment to beauty, and this last brings to mind Jesse Gillette. She outdoes her personal charms with stunning costumes, and in the dual role of kleptomaniac and somnambulist, is a delightful and comical character.

Some of the best numbers are contributed by groups of the principals. Sidney and Webster, with "Every Little Improvement," and a crowd of the stars, and one of the best offerings is a double sextette in which the male stars and the cream of the chorus participate, and there are others.

Robert Mantell, the foremost present exponent of Shakespeare and the classic drama, will commence an engagement of eight performances at the Majestic Theater tonight with an elaborate production of "Julius Caesar," which is considered as one of the greatest and best presentations of his repertoire.

Mr. Mantell's Brutus has long been considered as one of his very finest efforts, while in the matter of scenic investiture and number of players concerned it is said to eclipse any revival given recently.

Mr. Mantell is supported by an exceptionally fine company and his present tour is under the direction of William A. Brady.

Appearing as leading woman with Mr. Mantell is Kathie Wakeman, who is well known to local theatergoers.

Opening tonight in "Julius Caesar," Mr. Mantell will tomorrow night be seen in "Richard III."

On Wednesday afternoon "As You Like It" will be given; Wednesday night, "Richard III." Thursday night, "Richard III." Friday night, "King Lear." Saturday matinee, "The Merchant of Venice," and Saturday night, "Julius Caesar" will be repeated.

After a week of capacity audiences the Belasco company will tonight enter upon its second week in a fine performance of Paul Armstrong's remarkable play, "Alias Jimmy Valentine."

The production of "Alias Jimmy Valentine" is a genuine triumph of stock achievement, and it has scored the most pronounced success of any play that has occupied the Belasco stage within recent months.

This season's Orpheum Road Show, opening today, ought to measure up to the top standard, as the acts are individually of the very best and the ensemble is so arranged that not one conflict with another. Top place is held by two acts jointly, each of foreign origin. On Wednesday afternoon the Palace Music Hall, the Orpheum's biggest London house, and the Beryl, the Orpheum's Paris hall. The latter is the reigning beauty of Paris, and will be seen in a stunning spectacular act, depicting the life of a French girl.

The Palace Girls are the best pony ballet in existence; they have been dancing together for five years, and are experts in that line. In costume and all that goes to make a ballet perfect, they are the highest class of their respective sort. The sketch is "Honor Among Thieves," acted by Joseph Hart with a competent company; it is a comedy, despite its serious title, and is said to be very funny, being a solution to a new sort of a financial problem. Keller Mack and Frank Orth, each known for affiliation with another partner in the past, have united their song writing and delightful ability and appear in a sketch called "The Wrong Hermit."

Felix and Amelia Cairo are youngsters known as "The Runaway Kids," which they really are. They will be seen in clever impersonations and imitations of stage stars. Charles F. Semon, the narrow fellow, who was here last week to replace Ada Reeson, stays to rejoin the Road Show, of which he is a part. The other two stars will be Billy Scott and Harry Fick and Mabelle Lewis. The music will be especially selected to fit the action by Director Foxbridge, and the motion views, as usual, will illustrate world happenings.

"Way Down East" continues its breaking pace at the Burbank Theater where yesterday before two audiences that occupied every seat in the main street playhouse this classic of rural American comedy-drama started on the third week of uninterrupted success.

Box-office records show that the second week of "Way Down East" was considerably larger in attendance than the first week of the play and it may be taken as any criterion the third week will exceed the second in the matter of attendance.

Forrest Stanley continues to win much praise for his performance of David Bartlett, while it is the opinion of everyone who has seen the play that Florence Stone is at her very best in the role of Anna Moore, in which she wins and holds the sympathy of her audience throughout.

Much of the comedy is furnished by the Hi Miller of Henry Cookbridge, who sings "All Bound Round With A Woolen String," and who tells Joe Miller jokes to the delight of everyone.

A bill of seven new acts will come to the Empress Theater this afternoon, headed by Anna Buckley's "Canine Wonders," presenting one of the cleverest and most delightful animal acts in vaudeville. Harry Thompson, one of the best known moneologues, will also be one of the attractive features of the new bill in his monologue, "His Honor The Mayor," said to be very much in the class of Walter "Killey" Judge.

Other new acts to be seen this afternoon are Mmc. Barthold's Cockatoo, which should prove especially delightful to the bird folk.

Edna and Claire in "Yesterdays," Belle Dixon, Newell and Niblo in a novel

We could not afford to so strongly endorse Reall "93" Hair Tonic and continue to sell it as we do, if it did not do all we claim it will. Should our enthusiasm carry us away, and Reall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

We assure you that if your hair is beginning to unnaturally fall out, or if you have any scalp trouble, Reall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness.

Our faith in Reall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded if it does not do as we claim. Two sizes, 50c and \$1.00. Sold only at our stores—The Owl Drug Co., Los Angeles, San Francisco, Oakland, Sacramento, Seattle, Spokane, Portland.

"The Campus" entered upon the second week of its run at the Grand yesterday afternoon, to a crowded house. The same sort of attendance greeted the play on the first evening. There was some feeling that a second week of the revival of "The Campus" would not be patronized as well as was the initial week, but judging from yesterday's attendance, and from the advance sale, pure business will be done during the week to come.

Last season the play ran for sixteen weeks, thereby setting new records for runs of a play in stock. After a season on the road "The Campus" and the original cast were brought back to the Grand.

Our San Francisco friends have been telling us that Los Angeles has not yet seen the real Texas Tommy dance. They say the dances offered here under that name have been one and all but a mild-mannered imitation of the one and only genuine Pacific street Texas Tommy. Now we are to find out the rights of the matter, for the man who invented the Texas Tommy is billed to appear with his dancing partner at Pantages. No body disputes Peter's title to the authorship of Texas Tommy. In fact, it is about the only point on which the various schools of Texas Tommy dancers agree. Peter and Walton have danced the Texas Tommy in every dance hall of Panamafairtown and when they have instructed Los Angeles on the rights and lefts of the dance, are scheduled to do the same for Gotham.

The Georgia Campers, half a dozen of colored entertainers, will give mirth, music and dancing. The Delmead troupe of artists models will reproduce famous statues and original compositions of their own. George Hillman, known as the German Chauffeur, will tell amusing stories about the great and near great of political and social life. Galarr has a pretty, but somewhat hazardous act on the flyer ladder. Will F. Heber and the Langford Sisters are dancers, and their sensational comedians with well-established reputations. The Pantagescope and the Pantagescope will contribute popular features.

Messrs. Frazar and Goldsmith's Texas Tommy dancers—eight in number—will remain at the new Adolphus Theater on Main street, for another week. Packed houses at each performance were the rule at the Adolphus, and with this afternoon's matinee, the Texas Tommy dancers will begin a new week with the present outlook tending towards a record-breaking attendance.

Tony Regal, famous banjoist and mandolinist, will headline the vaudeville bill. Regal is one of the very few stringed instrument players who have the title of "duffy" across the strings down to a science. The Hawaiians first originated this method of playing, which created a furore in "white" countries. Very few white people have been able to master this method and Regal is one of the proud few.

Nichols and Sherwood will present the burlesque, "Trimming a Rube." Lloyd and Taylor have a good comedy singing and talking act, and the Adolphus Comedy Stock Company will offer "A Family Stew," with Dick Cullen as the author. Katherine Marley, Stella Adams, Maxie Mitchell, James Dillon, Jap Rentfrow and Otto Peck in the cast.

While passing Sunset boulevard and Hill street, last night, Louis Balenger and Clizbe Piper, both living at No. 159 South Olive street, were held up and robbed of 25 cents by two armed Mexicans.

The victims were unable to give a good description of the thieves, except that they spoke in Spanish, and both carried revolvers. The police are searching the Mexican colony for some clue to the identity of the hold-up men.

DRUG FIENDS.

More Than a Million in U. S.

According to a report recently issued by order of Dr. Wiley, of "pure food" fame, there are between one million and four million victims of the drug habit in the United States. Most of these were influenced to use of drugs through over-indulgence in proprietary medicines and "remedies" containing opium, cocaine, caffeine and like insidious elements. The unprincipled advertisers of these cures and cough syrups have been most industrious in this nefarious traffic.

Never use drugs for a cold. Half a ounce of virgin oil of pine, mixed with two ounces of glycerine and half a pint of pure whiskey, is recommended by health authorities as the quickest and most effective cough remedy.

Oil of pine is prepared in its purest form, by the Leach Chemical Company of Cincinnati, Ohio, and may be used at any drug store. It can be mixed at home, and is absolutely safe and free from the dangers that attend the use of drugs.

The L. A. Submarine Boat Co.
Offers \$2000.00

To any one who can point out a defect that will interfere with the efficiency of this submarine as regards anything which we claim it shall be competent to do.

WE CLAIM that the "Peace Maker" will run faster than any Submarine ever built. The ease with which it can be controlled increases as the speed increases. Because the propellers are on the forward end of the boat. The man operating the boat knows at all times how fast the boat is going, how deep it is and whether or not it is on a level keel, and he has perfect control over all these features. When the top of the periscope or range finder is above the surface of the water, the man operating the boat can gauge the distance away, the speed and the direction of travel of every object that is within sight, and he can see everything around the whole horizon at once. This Submarine has a wide field of operation before it for pleasure, treasure seeking, dredging and scientific research. The present types of boats are slow, especially when submerged, whereas this boat runs faster submerged than when on the surface, because we use the gas engines when the boat is running submerged instead of the dangerous storage batteries. It is very dangerous to attempt to run the present Submarines fast when submerged and there isn't a boat today that can run submerged on a level keel. This boat, in order to stay at a given depth, whether running or not, will maintain a level keel. Our boat is better in every way than the present Submarines.

PLENTY OF GOOD PURE WATER

Tells of Nature's Great Remedy for All Diseases—Also Gives a Simple Home Prescription to Relieve Stomach Trouble, Kidney and Bladder Affections and Rheumatism—Mix This Yourself at Home and Try It.

"The people here do not drink enough water to keep healthy," exclaimed a well-known authority. "The numerous cases of stomach, kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking water, nature's greatest medicine, has been neglected."

"Stop loading your system with curatives; get on the water wagon. If you are really sick, why, of course, take the proper medicine—plain common prescription treatment, which will not shatter the nerves or ruin the stomach."

"To cure rheumatism you must make the kidneys do their work; they are the filters of the blood; they must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and most of all you keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions you can do no better than take the following prescription: Fluid Extract Juniper Berries, one ounce; Compound Fluid Balmwort one ounce; Compound Syrup of Hypophosphites, four ounces. Mix by shaking well in a bottle and take a teaspoonful doses before each meal and at bedtime. But don't forget the water. Drink plenty and often."

"This valuable information and simple prescription should be posted up in every household and used at the first sign of an attack of rheumatism, backache or urinary trouble, no matter how slight."
